

calcTranslator/translator.cpp

```
graph TD; A[calcTranslator/translator.cpp] --> B[iostream]; A --> C[fstream]; A --> D[vector]; A --> E[string];
```

A diagram illustrating the dependencies of the file `calcTranslator/translator.cpp`. The file name is shown in a gray box at the top. Four blue arrows point from this box to four white boxes below it, representing the standard library headers it includes: `iostream`, `fstream`, `vector`, and `string`.

iostream
